1. COURSE INFORMATION

During the one-year duration of Artificial Intelligence Programming Assistant trade a candidate is trained on professional skill, professional knowledge & Employability skill related to job role. In addition to this a candidate is entrusted to undertake project work and extra-curricular activities to build up confidence. The broad components covered under Professional Skill subject are as below:

During the period of one year the trainee learns about safety and environment. They will learn computer basics and will perform installation, customization of Operating System, related software in a computer for Data Annotation purpose following safety precaution. The trainee will learn how to write programs using Python language, also able to interpret and working with Database. The trainee will be able to interpret Data Science and predictive analysis and can illustrate AI, Machine Learning and pre-trained models. Trainee will gain basic Skills and knowledge in Deep Learning and pre-trained models as well as proficiency in integrating natural language processing capabilities into applications, improving data analysis and decision-making, and enhancing the overall user experience. After completion of the course trainee can interpret and understand visual information using Computer vision as well as Generative AI Tools and models.

2.1 GENERAL

The Directorate General of Training (DGT) under Ministry of Skill Development & Entrepreneurship offers a range of vocational training courses catering to the need of different sectors of the economy/ labor market. The vocational training programs are delivered under the aegis of Directorate General of Training (DGT). Craftsman Training Scheme (CTS) with variants and Apprenticeship Training Scheme (ATS) are two pioneer programs of DGT for strengthening vocational training.

‘Artificial Intelligence Programming Assistant’ trade under CTS is one of the newly designed courses which will be delivered nationwide through a network of ITIs. The course is of one-year duration. It mainly consists of Domain area and Core area. In the Domain area (Trade Theory and Practical) impart professional skills and knowledge, while the core area (Employability Skill) imparts requisite core skills, knowledge, and life skills. After passing out the training program, the trainee is awarded National Trade Certificate (NTC) by DGT which is recognized worldwide.

Candidates broadly need to demonstrate that they are able to:

- Read and interpret technical parameters / documentation, plan and organize work processes, identify necessary materials and tools;
- Perform task with due consideration to safety rules, accident prevention regulations and environmental protection stipulations.
- Apply professional knowledge & employability skills while performing the job and modification & maintenance work.
- Check the system specification and application software as per requirement of the design of job.
- Document the technical parameter related to the task undertaken.

2.2 PROGRESSION PATHWAYS

- Can join industry as Artificial Intelligence Programming Assistant and will progress further as Artificial Intelligence Programmer, Senior Artificial Intelligence Programmer and can rise up to the level of AI Project Manager.
- Can become Entrepreneur in the related field.
- Can join Apprenticeship programs in different types of industries leading to a National Apprenticeship certificate (NAC).
- Can join Crafts Instructor Training Scheme (CITS) in the trade for becoming an instructor in ITIs.

- Can join Advanced Diploma (Vocational) courses under DGT as applicable.

2.3 COURSE STRUCTURE

Table below depicts the distribution of training hours across various course elements during a period of one-year: -

| S No. | Course Element | Notional Training Hours |
|-------|---------------------------------------|-------------------------|
| 1 | Professional Skill (Trade Practical) | 840 |
| 2 | Professional Knowledge (Trade Theory) | 240 |
| 3 | Employability Skills | 120 |
| | Total | 1200 |

Every year 150 hours of mandatory OJT (On the Job Training) at nearby industry, wherever not available then group project is mandatory

| | |
|---|-----|
| On the Job Training (OJT)/ Group Project | 150 |
| Optional Courses (10th/ 12th class certificate along with ITI certification or add on short term courses) | 240 |

Trainees of one-year or two-year trade can also opt for optional courses of up to 240 hours in each year for 10th/ 12th class certificate along with ITI certification or add on short term courses.

2.4 ASSESSMENT & CERTIFICATION

The trainee will be tested for his skill, knowledge and attitude during the period of course through formative assessment and at the end of the training program me through summative assessment as notified by the DGT from time to time.

- The Continuous Assessment (Internal) during the period of training will be done by **Formative Assessment Method** by testing for assessment criteria listed against learning outcomes. The training institute has to maintain an individual trainee portfolio as detailed in assessment guideline. The marks of internal assessment will be as per the formative assessment template provided on www.bharatskills.gov.in
- The final assessment will be in the form of summative assessment. The All-India Trade Test for awarding NTC will be conducted by Controller of examinations, DGT as per the guidelines. The pattern and marking structure is being notified by DGT from time to time. **The learning outcome and assessment criteria will be the basis for setting question papers for final**

Artificial Intelligence Programming Assistant

assessment. The examiner during final examination will also check the individual trainee’s profile as detailed in assessment guideline before giving marks for practical examination.

2.4.1 PASS REGULATION

For the purposes of determining the overall result, weightage of 100% is applied for six months and one year duration courses and 50% weightage is applied to each examination for two years courses. The minimum pass percent for Trade Practical and Formative assessment is 60% & for all other subjects is 33%.

2.4.2 ASSESSMENT GUIDELINE

Appropriate arrangements should be made to ensure that there will be no artificial barriers to assessment. The nature of special needs should be taken into account while undertaking the assessment. Due consideration should be given while assessing for teamwork, avoidance / reduction of scrap / wastage and disposal of scrap / waste as per procedure, behavioral attitude, sensitivity to the environment and regularity in training. The sensitivity towards OSHE and self-learning attitude are to be considered while assessing competency.

Assessment will be evidence based comprising the following:

- Job carried out in labs/workshop
- Record book/ daily diary
- Answer sheet of assessment
- Viva-voce
- Progress chart
- Attendance and punctuality
- Assignment
- Project work
- Computer based multiple choice question examination
- Practical Examination

Evidences and records of internal (Formative) assessments are to be preserved until forthcoming examination for audit and verification by examining body. The following marking pattern to be adopted for formative assessment:

| Performance Level | Evidence |
|---|--|
| (a) Marks in the range of 60%-75% to be allotted during assessment | |
| For performance in this grade, the candidate should produce work which demonstrates attainment of an acceptable standard of | <ul style="list-style-type: none"> • Demonstration of good skills and accuracy in the field of work/ assignments. |

Artificial Intelligence Programming Assistant

| | |
|---|--|
| <p>craftsmanship with occasional guidance, and due regard for safety procedures and practices</p> | <ul style="list-style-type: none"> • A fairly good level of neatness and consistency to accomplish job activities. • Occasional support in completing the task/job. |
| <p>(b) Marks in the range of 75%-90% to be allotted during assessment</p> | |
| <p>For this grade, a candidate should produce work which demonstrates attainment of a reasonable standard of craftsmanship, with little guidance, and regard for safety procedures and practices</p> | <ul style="list-style-type: none"> • Good skill levels and accuracy in the field of work/ assignments. • A good level of neatness and consistency to accomplish job activities. • Little support in completing the task/job. |
| <p>(c) Marks in the range of more than 90% to be allotted during assessment</p> | |
| <p>For performance in this grade, the candidate, with minimal or no support in organization and execution and with due regard for safety procedures and practices, has produced work which demonstrates attainment of a high standard of craftsmanship.</p> | <ul style="list-style-type: none"> • High skill levels and accuracy in the field of work/assignments. • A high level of neatness and consistency to accomplish job activities. • Minimal or no support in completing the task/ job. |

Computer Network Professionals, Other; Covers computing professionals not classified elsewhere in Group 213, Computing Professionals.

4. GENERAL INFORMATION

| | |
|---|---|
| Name of the Trade | ARTIFICIAL INTELLIGENCE PROGRAMMING ASSISTANT |
| NCO - 2015 | 2523.9900 |
| NOS Covered | SSC/N9511, SSC/N9512, SSC/N9513, SSC/N9514, SSC/N9515, SSC/N9516, SSC/N9517, SSC/N9518, SSC/N9519 |
| NSQF Level | Level-3.5 |
| Duration of Craftsmen Training | One Year (1200 Hours+150 hours OJT/Group Project) |
| Entry Qualification | Passed 10 th class examination |
| Minimum Age | 14 years as on first day of academic session. |
| Eligibility for PwD | LD, CP, LC, DW, AA, LV, HH, AUTISM, SLD |
| Unit Strength (No. of Student) | 24 (There is no separate provision of supernumerary seats) |
| Space Norms | 60 sq. metre |
| Power Norms | 5.5 KW |
| Instructors Qualification for: | |
| 1. Artificial Intelligence Programming Assistant Trade | <p>B.Voc/Degree in Computer Science/ Information Technology from AITCE/UGC Recognized University with one year experience in the relevant field.</p> <p style="text-align: center;">OR</p> <p>Post Graduate in Computer Science /Computer Application / IT from UGC Recognized University or NIELIT B Level with one-year experience in the relevant field.</p> <p style="text-align: center;">OR</p> <p>Bachelor in Computer Science / Computer Application / ITOR PGDCA from UGC recognized University or NIELIT A Level with two-year experience in the relevant field.</p> <p style="text-align: center;">OR</p> <p>03 years Diploma in Computer Science / IT from recognized Board/ Institute or relevant Advanced Diploma (Vocational) (ADIT) from DGT with two year experience in the relevant field.</p> <p style="text-align: center;">OR</p> <p>NTC/NAC in Artificial Intelligence Programming Assistant or any trade</p> |

Artificial Intelligence Programming Assistant

| | |
|--------------------------------------|---|
| | <p>in IT-ITeS sector trade with three-year experience in the relevant field.</p> <p>Essential Qualification: Relevant Regular / RPL variants of National Craft Instructor Certificate (NCIC) under DGT.</p> <p>NOTE:- Out of two Instructors required for the unit of 2 (1+1), one must have Degree/ Diploma and other must have NTC/ NAC qualifications. However, both of them must possess NCIC in any of its variants.</p> |
| 2. Employability Skill | <p>MBA/ BBA / Any Graduate/ Diploma in any discipline with Two years' experience with short term ToT Course in Employability. (Must have studied English/ Communication Skills and Basic Computer at 12th / Diploma level and above)</p> <p style="text-align: center;">OR</p> <p>Existing Social Studies Instructors in ITIs with short term ToT Course in Employability.</p> |
| 3. Minimum Age for Instructor | 21 Years |
| List of Tools and Equipment | As per Annexure – I |
| | |

5. LEARNING OUTCOME

Learning outcomes are a reflection of total competencies of a trainee and assessment will be carried out as per the assessment criteria.

5.1 LEARNING OUTCOMES

1. Apply Computer basics and perform installation, customization of Operating System, related software in a computer for Data Annotation purpose following safety precaution. (NOS: SSC/N9511)
2. Write programs using Python language. (NOS: SSC/N9512)
3. Interpret and working with Database. (NOS: SSC/N9513)
4. Interpret Data Science and predictive analysis. (NOS: SSC/N9514)
5. Illustrate AI, Machine Learning and pre-trained models. (NOS: SSC/N9515)
6. Gain basic Skills and knowledge in Deep Learning and pre-trained models. (NOS: SSC/N9516)
7. Gain proficiency in integrating natural language processing capabilities into applications, improving data analysis and decision-making, and enhancing the overall user experience. (NOS: SSC/N9517)
8. Interpret and understand visual information using Computer vision. (NOS: SSC/N9518)
9. Interpret and understand Generative AI Tools and models. Learn the ethical challenges of generative AI and Responsible AI. (NOS: SSC/N9519)

6. ASSESSMENT CRITERIA

| LEARNING OUTCOMES | ASSESSMENT CRITERIA |
|---|--|
| <p>1. Apply Computer basics and perform installation, customization of Operating System, related software in a computer for Data Annotation purpose following safety precaution. (NOS: SSC/N9511)</p> | Identify safety symbols / hazard. |
| | Perform safe methods of fire fighting in case of electrical fire. |
| | Use fire extinguishers. |
| | Demonstrate various parts of computer system. |
| | Customize the desktop settings and manage user accounts. |
| | Create, delete, copy, move, rename, view, sort, zip and unzip of files & folders. |
| | Perform BIOS settings modifications. |
| | Install Windows operating system. |
| | Format hard disk and create partition. |
| | Install application software for Windows i.e. Office Package/ PDF Reader/Media Player/ Antivirus/ Photoshop/ Flash/ Maya/ 3Ds Max etc. |
| | Install Drivers for printer/ scanner/ webcam /DVD etc. |
| | Edit document using basic formatting tools in MS Word. |
| | Inserting and formatting tables/ pictures/ videos / other objects. |
| | Perform conditional Mail Merge/ External Data Source. |
| | Perform Letters/ Label & Envelop printing using Mail Merge. |
| | Implement Excel functions of major categories i.e. Financial, Logical, Text, date & time, Lookup, Math, Statistical etc. |
| | Modify Excel page setup and print a worksheet. |
| | Create Slide shows, insert picture and theme in MS Power Point. |
| | Add new slide/format text/ link with word and excel documents. |
| Animate slide transitions and objects. | |
| Create slide shows by inserting audio & video and synchronise with presentation. | |
| <p>2. Write programs using Python language. (NOS: SSC/N9512)</p> | Install/set up the environment & run Python. |
| | Use Command Line and IDE to create and execute a python program. |
| | Write and test a python program to demonstrate print statement/comments/ different types of variables. |
| | Write and test a python program to perform data and data type operations/ string operations/ date/ input and output/ output |

| | |
|---|---|
| | formatting and operators. |
| | Construct and analyze code segments that use branching statements. |
| | Construct and analyze code segments that perform iteration. |
| | Construct and analyze code segments that include List comprehensions, tuple, set and Dictionary comprehensions. |
| | Perform basic operations using built |
| | Solve complex computing problems by using built |
| | Perform basic operations using functions. |
| | Perform basic programming using Object Oriented Programming concept. |
| | Construct and analyze code segments for file handling, folder and datetime handling, exception handling. |
| | Construct code segment for interacting with web requests, web scraping and web crawling. |
| | |
| 3. Interpret and working with Database. (NOS: SSC/N9513) | Install of MySQL. |
| | Troubleshoot basic installation issues. |
| | Create and use database. |
| | Design tables. |
| | Apply data integrity rules. |
| | Use the DDL, DCL and DML statements. |
| | Enforce constraints, primary key and foreign key. |
| | Add indices to Tables |
| | Simple select queries. |
| | Insert and delete queries Update queries |
| | Use the Number, Date and Character functions. |
| | Joins, Group by, Having, Sub query. |
| | Indexing and Optimizing Query. |
| | |
| 4. Interpret Data Science and predictive analysis. (NOS: SSC/N9514) | Segregate structured data & unstructured data, data integration , data clearing |
| | Create data dimension. |
| | Demonstrate data visualization. |
| | Data representation & Cluster Analysis. |
| | Different patterns of data. |
| | Pre-process the data. |
| | Transform the preprocessed data. |

Artificial Intelligence Programming Assistant

| | |
|--|--|
| | Segregate pre-processed data into different patterns. |
| | Evaluate the data patterns. |
| | Tread Analysis. |
| | Statistical approach with Bayesian network, Regression Analysis, Correlation Analysis, Cluster Analysis. |
| | |
| 5. Illustrate AI, Machine Learning and pre-trained models. (NOS: SSC/N9515) | Identify Supervised/ Unsupervised / Reinforcement Learning. |
| | Identify Training Set / Test set with real-life example. |
| | Calculate mean/ median / mode. |
| | Calculate measures of central tendency/ population variance/ sample variance/ standard deviation. |
| | Calculate Skewness / Kurtosis in a graph. |
| | Identify tools for documenting statistical analysis. |
| | Select different graphical formats for presenting data. |
| | Probability with Bayes Theorem. |
| | Hypothesis/ hypothesis testing with multiple samples. |
| | Solve problems on Clustering. |
| | Solve problems on Model Selection. |
| | Solve problems on Classification. |
| | Solve problems on Chi-Square test. |
| | Solve problems on t-Test. |
| | Solve problems on Correlation analysis. |
| Solve problems related to Inferential statistics. | |
| Identify and understand the components of Machine Learning with pre-trained models. | |
| | |
| 6. Gain basic Skills and knowledge in Deep Learning and pre-trained models. (NOS: SSC/N9516) | Implementation and training of Neural Networks. |
| | Working with Perception, activation function and derivatives. |
| | Perform Forward and Backward Propagation. |
| | Working with computing loss, gradient descent, regularization, Optimization, Shallow and deep neural network. |
| | Identify and understand the components of Deep Learning with pre-trained models. |
| | |
| 7. Gain proficiency in integrating natural language processing capabilities into | Demonstrate Natural Language features – basic NLP requests/ specifying text content. |
| | Perform sentiment analysis – analyzing sentiment in a string/ from a cloud storage/ sentiment analysis response fields/ interpreting |

Artificial Intelligence Programming Assistant

| | |
|--|---|
| <p>applications, improving data analysis and decision-making, and enhancing the overall user experience. (NOS: SSC/N9517)</p> | sentiment analysis values. |
| | Plan and perform entity analysis –analysing entities in a string/ from cloud/ entity analysis response fields. |
| | Execute entity sentiment analysis – entity sentiment analysis requests and response. |
| | Perform syntactic analysis – analysing syntax in a string/ from cloud/ syntactic analysis requests and responses. |
| | Perform Content classification – performing multiple operations in a single request. |
| | |
| <p>8. Interpret and understand visual information using Computer vision. (NOS: SSC/N9518)</p> | Perform environmental setup. |
| | Read and write an image. |
| | Show Matplotlib/ image properties/ Bitwise operations/ drawing shapes and text. |
| | Handle mouse event/ add trackbar/ resize and rotate an image. |
| | Demonstrate image threshold/ image filtering/ edge detection/ image features and alignment/ image stitching and creating panoramas/ high dynamic range imaging (HDR)/ histogram and histogram using Matplotlib. |
| | Demonstrate color spaces/ Morphological transformations/ erosion/ dilation/ image contours – find contours and draw contours. |
| | Perform template matching/ image pyramids/ image addition/ image blending with pyramids/fourier transform. |
| | Capture video from camera/ play video from file/extract images from video/ video from images/ face detection/meanshift and camshaft. |
| | Perform object tracking and detection/ Pose estimation/ feature detection/ feature matching/ digit recognition with KNN. |
| | |
| <p>9. Interpret and understand Generative AI Tools and models. Understand the ethical challenges of generative AI and Responsible AI. (NOS: SSC/N9519)</p> | Demonstrate with Generative AI Tools and models perform NLP and Computer Vision activities. |
| | Perform NLP using Generative AI Tools and models. |
| | Perform Computer Vision activities using Generative AI Tools and models. |
| | Learn the ethical challenges of generative AI, Promoting responsible AI usage, AI governance and regulation |
| | |

7. TRADE SYLLABUS

| SYLLABUS FOR ARTIFICIAL INTELLIGENCE PROGRAMMING ASSISTANT TRADE | | | |
|---|--|---|--|
| DURATION: ONE YEAR | | | |
| Duration | Reference Learning Outcome | Professional Skills (Trade Practical) With Indicative Hours | Professional Knowledge (Trade Theory) |
| Professional Skill 90 Hrs.; | Apply Computer basics and perform installation, customization of Operating System, related software in a computer for Data Annotation purpose following safety precaution. | Safe working practices <ol style="list-style-type: none"> 1. Visit IT Lab. of the institutes and locate the power supply to computer and its peripherals. 2. Safety symbols and hazard identification. 3. Practice safe methods of fire fighting in case of electrical fire. 4. Use of fire extinguishers. | Safe working practices <ul style="list-style-type: none"> • Scope of the IT trade. • Safety rules and safety signs. • Types and working of fire extinguishers. |
| Professional Knowledge 30 Hrs. | | Computer Components <ol style="list-style-type: none"> 5. Demonstrate of various parts of computer system such as mother board, RAM, CPU, serial and parallel ports. 6. Power on start button of a computer system and check power supply to computer and all the connected peripherals of the system. | Introduction to Computer components <ul style="list-style-type: none"> • Introduction to computer system. Concepts of Hardware and Software. • Function of motherboard components and various processors. • Various Input/ Output devices in use and their features. |
| | | Using Operating System and Software Installation <ol style="list-style-type: none"> 7. Practice Windows interface using start menu, task bar, title bar, | Introduction to Operating System and Software Installation process <ul style="list-style-type: none"> • Introduction to Windows Operating System. |

Artificial Intelligence Programming Assistant

| | | | |
|--|--|---|---|
| | | <p>Windows help, My computer, Recycle Bin.</p> <ol style="list-style-type: none"> 8. Customize the desktop settings and manage user accounts. 9. View system properties and customize the same using control panel details. 10. Work with keyboard shortcut commands. 11. Create, delete, copy, move, rename, view, sort, zip and unzip of files & folders. 12. Use Multimedia tools and windows media player for image, audio and video. 13. View the BIOS settings and their modifications. 14. Install Windows operating system. 15. Format hard disk and create partition. 16. Install necessary application software for Windows i.e. Office Package, PDF Reader, Media Player, Antivirus etc. 17. Install Drivers for printer, scanner, webcam and DVD etc. 18. Dongle and Pen drive and SSD handling, range extenders 19. Remote Desktop accessibility and handling (Any Desk, team viewer) 20. Install Photoshop, Maya and CANVA Fire Fly, AI, Paint Brush | <ul style="list-style-type: none"> • Main features of Windows OS. • File Management through Windows explorer. • Introduction and applications of essential Accessories, Multimedia players. • Introduction to the booting process. • Introduction to various types of memories and their features. • Concept of installation process of Operating System and software. • Basic Hardware and software issues and their solutions. • Usage of Application software and Antivirus. |
|--|--|---|---|

| | | | |
|--|--|---|--|
| | | <p>Using MS Office/Google work space</p> <p>21. Open MS Word/ Google work space, familiarize with basicword components and practice on creating, saving, closing and renaming of word documents.</p> <p>22. Edit document using basic formatting tools.</p> <p>23. Practice Inserting and formatting tables, pictures, videos and other objects.</p> <p>24. Use Mail merge tool. Use conditional Mail Merge, External Data Source. Practice Letters, Label & Envelop printing using Mail Merge.</p> <p>25. Open MS Excel, familiarize with basic application components and practice creating, saving and formatting excel spread sheets.</p> <p>26. Practice Excel functions of all major categories i.e., Financial, Logical, Text, date& time, Lookup, Math, Statistical etc.</p> <p>27. Use various data types in Excel, sorting, filtering and validating data, PIVOT Tables.</p> <p>28. Modify Excel page setup and print a worksheet.</p> <p>29. Open power point presentation, familiarize</p> | <p>Introduction to Using MS Office /Google work space</p> <ul style="list-style-type: none"> • Introduction to the various applications in using MS Office / Google work space. • Introduction to Word features, Office button, toolbars. • Creating, saving and formatting and printing documents using Word. • Introduction to Excel features, data types and various functions in all categories ofExcel. • Concepts of sorting, filtering and validating data. • Introduction to Power Point Slide Show creation process. • Fine tuning the presentation and good presentation technique. <p>Stress Management (As per data annotation)</p> <p>Time Management</p> <p>Word Management</p> <ul style="list-style-type: none"> • Precision • Recall • Accuracy • Quality • Efficiency • Labeling <p>Introduction to Cloud (Saas, PAAS, IAAS)</p> |

| | AI. | large language models. 104. Generating Images using large image models. | and deepfakes. <ul style="list-style-type: none"> • Promoting responsible AI usage and mitigating biases in generated content. • AI governance and regulation |
| Project Work/Industrial Visit (Optional) | | | |

Note: The duration of Professional skills (Trade practical) and Professional knowledge (Trade theory) are indicative only. The Training Institute has the flexibility to adopt suitable training duration for effective training.

SYLLABUS FOR CORE SKILLS

1. Employability Skills (Common for all CTS trades) (120 Hrs)

Learning outcomes, assessment criteria, syllabus and Tool List of Core Skills subjects which is common for a group of trades, provided separately in www.bharatskills.gov.in/www.dgt.gov.in

| LIST OF TOOLS & EQUIPMENT | | | |
|--|---|--|-------------|
| Artificial Intelligence Programming Assistant (for Batch of 24 Candidates) | | | |
| S No. | Name of the Tools and Equipment | Specification | Quantity |
| A. Trainees Tools/ Equipment | | | |
| 1. | Desktop Computer | CPU: 32/64 Bit, Latest processor/gen, Speed: 3 GHz or Higher. RAM: 12 GB or higher, 1 TB SSD, Wi-Fi Enabled. Speaker, Network Card: Integrated Gigabit Ethernet, with USB Mouse, USB Keyboard and Monitor (as available in the market). Or All in one PC Licensed Operating System and Antivirus compatible with trade related software. | 12 Nos. |
| 2. | Server / Workstation with GPU | Linux OS | 01 No. |
| 3. | Laptop | 4 th Gen Ci5 or higher Processor, 16 GB RAM, 1TB Hard Disk/SSD, Win/latest Preloaded Licensed OS, 2GB Graphics Card, DVD Writer, Standard Ports and Connectors. | 01 No. |
| 4. | Wi-Fi Router | With Wireless Connectivity | 01 No. |
| 5. | Switch | 24 Port | 02 Nos. |
| 6. | Crimping Tool | RJ-45 | 05 Nos. |
| 7. | Screwdriver Set | Standard | 04 Sets |
| 8. | LAN Tester | UTP cat5 cable tester (RJ 45) | 05 Nos. |
| 9. | Structured cabling in Lab | To enable working with Wired Networks for Practical. | As required |
| 10. | Internet Connectivity | Broadband connection with min. 2 Mbps speed/Optical Fiber | As required |
| 11. | Registered Domain | At least 100 MB Web Space | As required |
| 12. | All in One printer | A4 size | 01 No. |
| 13. | Digital Web Cam | High Resolution (3.1 Megapixel or higher) | As required |
| 14. | DLP Projector with Screen/Multimedia Projector with screen/Smart Interactive Board/Smart TV | | 01 No. |
| 15. | Online UPS | 5 KVA | 01 Nos. |
| 16. | Programming Language | Python/R | As Required |

**Artificial Intelligence Programming Assistant**

| | | | |
|---|--|---|--------------------------------------|
| 17. | Database | MySQL | As Required |
| 18. | For Data Science, Machine Learning, Deep Learning. | Any open-source tool like Python / Pandas / Matplotlib /Tensorflow / Keras / Numpy / PyTorch / Cloud based tools etc. | As Required |
| 19. | Tool for NLP | Label Studio, Label Editor /Python /Cloud based tools etc. Any open source tools like Open NLP, NLTK | As Required |
| 20. | Computer vision Tool | Any open-source tool like OpenCV/ Python /Cloud based tools etc. | As Required |
| 21. | Cloud Services | AWS / Azure / Google / IBM etc. | As Required. |
| 22. | Bot Services | AWS / Azure / Google / IBM etc. | |
| 23. | Generative AI | Any open-source tool like chatGPT / DALL-E / Cloud based tools etc. | As Required |
| 24. | Headphone &mic. set | Wired | 05 Nos. |
| 25. | Sound System | 2:1 | 01 No. |
| 26. | External Hard Disk | 1 TB | 02 Nos. |
| 27. | Tools | Crimping etc. (As per requirement), Wi-Fi dongles, Bluetooth Dongles | |
| B. Software | | | |
| 28. | MS Office/Open Office | (Academic) latest version available at the time of procurement | 25 Licenses |
| 29. | Antivirus for – clients / workstations in profile | As required | 25 Licenses |
| C. List Of Other Items/Furniture | | | |
| 30. | Chair and table for the instructor | As required | 01 each (for classroom & laboratory) |
| 31. | Dual Desk or Chair and Tables for Trainees | As required | 12 / 24 Nos. |
| 32. | Computer table/Work benches | As required | For 24 Computers |
| 33. | Operator's chair | As required | 24 Nos. |
| 34. | Air conditioner | As required (2 Ton) | 2 Nos. |
| 35. | White Board | As required | 01 No. |
| 36. | Almirah | As required | 01 No. |
| 37. | Fire Extinguisher | Arrange all proper NOCs and equipment from Municipal/Competent authorities. | |
| <u>NOTE:</u> | | | |
| 1. Internet facility is desired to be provided in the class room. | | | |

ANNEXURE - II

The DGT sincerely acknowledges contributions of the Industries, State Directorates, Trade Experts, Domain Experts, trainers of ITIs, NSTIs, faculties from universities and all others who contributed in revising the curriculum.

Special acknowledgement is extended by DGT to the following expert members who had contributed immensely in this curriculum.

| List of Expert Members participated/ contributed for finalizing the course curriculum of Artificial Intelligence Programming Assistant trade held on 04.09.2023 at CSTARI, Kolkata | | | |
|---|--|---|----------------|
| S No. | Name & Designation | Organization | Remarks |
| 1. | Mr. Sunil Kumar Gupta, DDG (ER) | CSTARI, Kolkata | Chairman |
| 2. | Mr. N.R. Aravindan, Director | CSTARI, Kolkata | Member |
| 3. | Mr. G.C. Saha, Joint Director | CSTARI, Kolkata | Member |
| 4. | Mr. N.P. Bannibagi, Deputy Director | NIMI, Chennai | Member |
| 5. | Mr. Abhishek Kumar, Deputy Director | STPI, Kolkata | Member |
| 6. | Mr. MD Hussain Rabbani, Scientist "C" | ERTL (E), STQC, Kolkata | Member |
| 7. | Mr. Sourav Sen, Advisory Technical Spec. | IBM, India | Member |
| 8. | Mr. Asok Bandyopadhyay, Associate Director | C-DAC, Kolkata | Member |
| 9. | Mr. Indrajit Bhattacharya, Principal Scientist | TCS, Kolkata | Member |
| 10. | Mr. Niladri Roy, Consultant | TCS, Kolkata | Member |
| 11. | Mr. Amit Kumar Mandal, Professor | Techno India University, Kolkata | Member |
| 12. | Mr. Goutam Roy, Service Delivery Head | Prime Infoserve LLP, Kolkata | Member |
| 13. | Mr. Amlan Raychaudhuri, Asst. Professor | BP Poddar Institute of Management & Technology, Kolkata | Member |
| 14. | Mr. Prodip Mukhopadhyay, Sr. Advisor | MAKAUT, Kolkata | Member |
| 15. | Mr. Avishek Paul, Asst. Professor | Techno India University, Kolkata | Member |
| 16. | Mr. Arijit Sengupta, Asst. | TCS, Kolkata | Member |

Artificial Intelligence Programming Assistant

| | Consultant | | |
|-----|--|--------------------|--------|
| 17. | Mr. B. Sharanappa, Asst. Director | CSTARI, Kolkata | Member |
| 18. | Mr. Bhagat Singh, Asst. Director | CSTARI, Kolkata | Member |
| 19. | Mr. M.J. Vijay Raju, Asst. Director | CSTARI, Kolkata | Member |
| 20. | Mr. Akhilesh Pandey, Asst. Director | CSTARI, Kolkata | Member |
| 21. | Mr. B.K. Nigam, TO | CSTARI, Kolkata | Member |
| 22. | Mr. K. V. S. Narayana, TO | CSTARI, Kolkata | Member |
| 23. | Mr. P. K. Bairagi, TO | CSTARI, Kolkata | Member |
| 24. | Mr. B. Biswas, TO | CSTARI, Kolkata | Member |
| 25. | Mr. Anindya Sundar Das Gupta, Instructor | Women ITI, Banipur | Member |
| 26. | Sarbojit Neogi, VI | NSTI, Kolkata | Member |
| 27. | Mr. Jinendran PK, Junior Consultant | CSTARI, Kolkata | Member |
| 28. | Mr. Sarvesh Singh, Junior Consultant | CSTARI, Kolkata | Member |
| 29. | Mr. Sandeep, Junior Consultant | CSTARI, Kolkata | Member |
| 30. | Mr. Pradip Biswas, Jr. D/man | CSTARI, Kolkata | Member |
| | | | |
